LED Display

# SUPREME SERIES

INDOOR LED PANEL

THE THINNEST . LIGHTEST . FINEST .

## SUPREME SERIES

### **OVERWHELMS THE CROWD WITH THE SUPREME VISUAL QUALITY**

Supreme Series LED Display delivers images and videos in amazingly high-resolution and vivid color. With a narrow pixel pitch up to P.0.9375mm, the superfine pitch solution offers unlimited possibilities for advertising, digital broadcasting, and marketing events with surprising visual detail. The depth of the Series panel is 24mm (0.008ft.) only. The ultra-slim design, along with the front-serviceability, offers the optimal flexibility and conveniences for installation and maintenance. It is perfect for public and commercial indoor broadcasting, such as shopping malls, hotels, galleries, cinemas, and event venues.

## **4K HD DISPLAYS THE REAL BEAUTY**

Supreme Series with a super-fine pitch ranging from 1.875mm to deliciated 0.9375mm achieves a 4K ultra-high-resolution, providing a brilliant and realistic visualization.

## **SLIM AND LIGHTWEIGHT DESIGN**

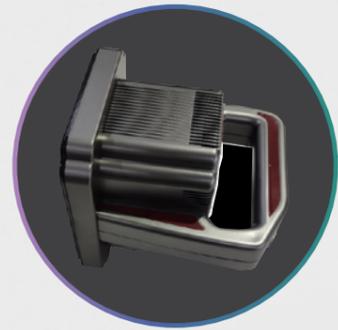

Supreme Series is 24mm thick, the same as the diameter of a US quarter, and it weighs 5kgs only. Its slim and lightweight structure offers flexibility for indoor signage, maximizes container utilization, and minimizes transportation and installation costs.

**LIGHTHOUSE**  
CREATE IMPACT

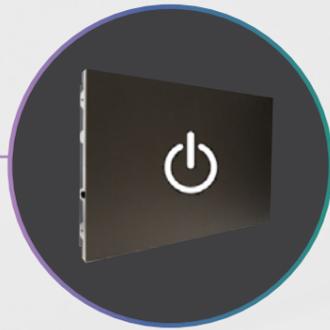

## HASSLE-FREE FRONT SERVICEABILITY

Supreme S-Series provides a cable-free set-up. The LED intelligent model can be attached or detached by hand or with a magnetic tool, this reduces lots of time on installation and maintenance.

1 Get the suction tool ready

2 Power off the panel

3 Hold the handle of the tool and align it with the panel surface.

4 Press the button and take the IM out from the panel carefully

## **AESTHETIC DESIGN**

Exude aesthetic stylish from the front and back. Supreme Series provides impressive visualization from the high-quality front display while exuding aesthetic on the back with classy patterns.

## TRUE COLOR RESTORATION

Supreme Series displays brightness and colors calibrated with the CIE standard, along with the 4K Ultra-HD. The Series renders color gradations with smoother and more natural transitions than regular HD LED displays, reproducing the original colors from the video source. \*HDR compatible on request.

#### PROVEN MODULE DESIGN

The quality of the LED module determines the performance of an LED video screen. Our industry-leading LED display module is the result of our decades of experience, patented technologies, proven supply chain, and continuous quality improvement.

#### WIDE VISUAL VIEWING ANGLE

The crowd-pleasing optimum viewing the angle of 160° in both horizontal and vertical maximizes the effective broadcast reach.

#### EASY INSPECTION AND REPAIR

Provide comprehensive diagnostics feedback to monitor, adjust and report problems remotely. Problems include Internal panel temperature, PSU voltage status, auto brightness adjustment, reporting service, and faulty alarm.

#### PROFESSIONAL COLOR UNIFORMITY

Supreme Series matches colors with CIE standard. It calibrates both brightness and color for the least brightness variance and true color reproduction from the video source.

#### STABILITY-GUARANTEED

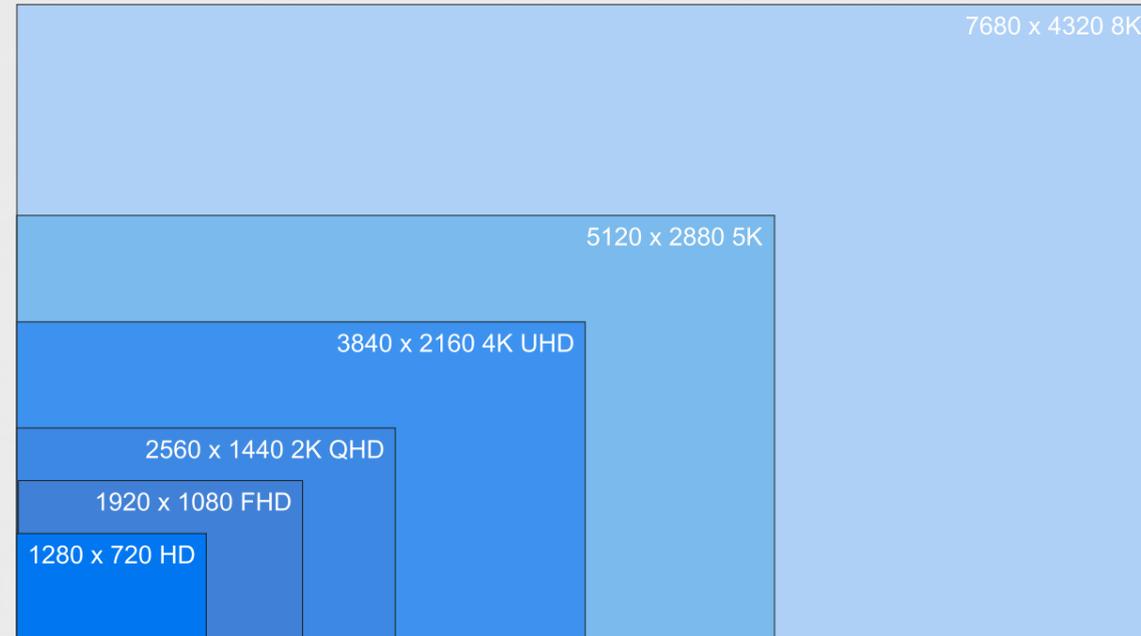

Supreme Series provides DUAL power, signal, and control system (on request) to minimize the risk of operation faulty during the event.

#### COMPATIBLE WITH NOVASTAR

Supreme Series is compatible with the user-friendly and universally accepted NOVASTAR video processor.
